🎓 EDUCATION

Master's degree in Microengineering

2025 – 2027

EPFL, Lausanne, Switzerland

Specialization: Minor in Biomedical Technologies

Bridging year to Master

2024 – 2025

EPFL, Lausanne, Switzerland

Exchange Program: Mechanical Engineering

2023 – 2024

Laval University, Québec, Canada

Practical fabrication experience using CNC machining and robotic arm programming, applied through multiple mechanical design and manufacturing projects

BSc. Industrial Design Engineering

2021 – 2024

HE-Arc Ingénierie, Neuchâtel, Switzerland

Specialization: Ergonomics and Design. Focus on integrating user experience (UX, UI) with technical conception and development

Bridging year to Bachelor of Applied Science

2020 – 2021

CPNV, Yverdon-sur-les-Bains, Switzerland

Engineering foundation in mechanics, electronics, automation and robotics, with hands-on projects

🔧 EXPERIENCES

Semester Project - Laboratory for Soft Bioelectronic Interfaces

-/6 2026

LSBI, Biotech Campus, Geneva, Switzerland

Stretchable Neural Interfaces: Designing and Testing a Custom Platform for Mechanical and Electrochemical Characterization. Microfabrication in cleanroom environment.

Student project – Product Design and System Engineering

5.75/6 2025

EPFL, Lausanne, Switzerland

Conception of an health-monitoring device for a one-semester design project

Awarded for the best project of the year

Bachelor's Thesis

5.5/6 2024

Gliapharm, Biotech Campus, Geneva, Switzerland

Design and Prototyping of a diagnostic medical device in the neuroscience and drug development field

Student Robotic Project

5.5/6 2021

HE-Arc Ingénierie, Neuchâtel, Switzerland

Project Management: Design, Machining, Assembly, and Programming of a robot using micro-controllers.

Participation in a competition.

ELIAS PAJOT

Biomedical Engineering Student

WORK EXPERIENCE

Activity Leader and Technician

2020 – 2023

Paintball Cobalt Project, La Croix-sur-Lutry, Switzerland

Organized and managed game sessions, provided active coaching for adult players, and supervised children's parties.

Sales assistant / all rounder

2020 – 2023

Denner Satellite, Belmont-sur-Lausanne, Switzerland

Managed cash operations, stock replenishment, and provided customer service every Sunday morning

SKILLS

MICROFABRICATION

Experience in clean room environment, micro-fabrication techniques

Clean Room

CAD & SIMULATION

3D modelling, mechanical design, assembly, animation and FEM simulation

SolidWorks

Siemens NX

Fusion 360

AutoCAD

COMSOL

Blender

PROTOTYPING & FABRICATION

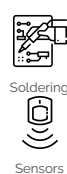

Practical fabrication using manual lathe, CNC, laser cutting, 3D printing, soldering and sensor integration.

3D Print

Machining

Soldering

Sensors

Laser Cut

ELECTRONICS & AUTOMATION

Electrical schematic design, PLC programming and automation system integration.

LabVIEW

TIA Portal

QElectrotech

PROGRAMMING

Embedded and scientific programming for data acquisition, signal processing and device control.

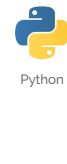

Arduino

JavaScript

MATLAB

Python

DESIGN & OFFICE

Standard office productivity tools, visual communication, and technical illustration.

Powerpoint

Illustrator

Word

Photoshop

Excel

LANGUAGES & INTERESTS

Languages

French

Native

English

C1 – Fluent

German

B1 – Intermediate

Interests

 Fishing (No-kill)

 Music Production (FL Studio DAW)

 Motorcycling & Vintage Bike Restoration

 Jewelry & Gemstone Crafting
